Local SEO: Dominate Cape Town

How to Win the Battle for Your Backyard and Own the "Near Me" Search.

01 The "Map Pack" is King

Google shows the "Map Pack" above organic results. These users have high intent—they are ready to buy or visit immediately.

Google Business Profile: Your GBP is your new homepage. Verify it, fill it out completely, and post regular updates.

Ranking Signals

- ✓ **Reviews:** Quantity and quality of 5-star ratings.
- ✓ **Keywords:** "Best web design in Cape Town".
- ✓ **Responsiveness:** Reply to every review.

02 Local Content Strategy

Don't write generic content. Localize it. Instead of "Wedding Venues", write "Top 10 Wedding Venues in Stellenbosch".

"Local SEO is the lowest-hanging fruit. The competition is lower, and the leads are higher quality. Own your backyard first."
