

# AUTOMATION ROI CALCULATOR

Calculate Your Time & Money Savings

TIME  
SAVE

MONEY  
SAVE

**CAPEWEB**

AI-Powered Website Automation  
for Cape Town SMBs

# The True Cost of Manual Work

Every hour you spend on repetitive tasks is an hour you're not spending on growth, strategy, or building relationships. But most business owners don't realize just how much time—and money—they're losing to manual processes.

This calculator helps you quantify the real ROI of automation. By the end, you'll know exactly how much you could save (in both time and money) by automating just a few key workflows in your business.

**"I didn't realize I was spending R15,000 per month on tasks  
a chatbot could do for R500. The ROI was instant."  
- Cape Town Service Business Owner**

# How This Calculator Works

We'll walk through five common manual tasks that automation can handle. For each task, you'll estimate:

1. **Time spent per week** - How many hours you or your team spend on this task
2. **Hourly cost** - What that time is worth (your rate or your team member's salary)
3. **Automation potential** - What percentage AI could handle (we'll provide estimates)

## The Formula:

$$\text{Annual Savings} = (\text{Hours/Week} \times \text{Hourly Cost} \times \text{Automation \%} \times 52 \text{ weeks}) - \text{Automation Cost}$$

# Task 1: Lead Qualification & Response

**What it includes:** Answering inquiry emails, qualifying leads, scheduling calls, following up with prospects, answering FAQ questions.

| <b>Your Numbers</b>                   | <b>Fill In</b> | <b>Example</b>   |
|---------------------------------------|----------------|------------------|
| Hours per week on this task           | _____          | 6 hours          |
| Hourly cost (your rate or staff rate) | R _____        | R 500/hr         |
| <b>Weekly cost (hours × rate)</b>     | <b>R _____</b> | <b>R 3,000</b>   |
| <b>Monthly cost (× 4.3 weeks)</b>     | <b>R _____</b> | <b>R 12,900</b>  |
| <b>Annual cost (× 52 weeks)</b>       | <b>R _____</b> | <b>R 156,000</b> |

**Automation Potential:** 70-80% (AI chatbots can handle most inquiries)

**Annual Savings Estimate:** R 109,200 - R 124,800 (based on example above)

**Automation Cost:** R 500-2,000/month for chatbot + setup

## Task 2: Social Media Content Creation

**What it includes:** Writing posts, creating graphics, scheduling content, responding to comments and DMs.

| <b>Your Numbers</b>                   | <b>Fill In</b> | <b>Example</b>  |
|---------------------------------------|----------------|-----------------|
| Hours per week on this task           | _____          | 4 hours         |
| Hourly cost (your rate or staff rate) | R _____        | R 400/hr        |
| <b>Weekly cost (hours × rate)</b>     | <b>R _____</b> | <b>R 1,600</b>  |
| <b>Monthly cost (× 4.3 weeks)</b>     | <b>R _____</b> | <b>R 6,880</b>  |
| <b>Annual cost (× 52 weeks)</b>       | <b>R _____</b> | <b>R 83,200</b> |

**Automation Potential:** 60-70% (AI generates content, you review and approve)

**Annual Savings Estimate:** R 49,920 - R 58,240

**Automation Cost:** R 300-1,000/month for AI content tools

## Task 3: Email Follow-Ups & Nurturing

**What it includes:** Writing follow-up emails, checking in with leads, sending reminders, nurturing prospects through the sales funnel.

| <b>Your Numbers</b>                   | <b>Fill In</b> | <b>Example</b>  |
|---------------------------------------|----------------|-----------------|
| Hours per week on this task           | _____          | 3 hours         |
| Hourly cost (your rate or staff rate) | R _____        | R 500/hr        |
| <b>Weekly cost (hours × rate)</b>     | <b>R _____</b> | <b>R 1,500</b>  |
| <b>Monthly cost (× 4.3 weeks)</b>     | <b>R _____</b> | <b>R 6,450</b>  |
| <b>Annual cost (× 52 weeks)</b>       | <b>R _____</b> | <b>R 78,000</b> |

**Automation Potential:** 80-90% (triggered sequences based on behavior)

**Annual Savings Estimate:** R 62,400 - R 70,200

**Automation Cost:** R 200-800/month for email automation platform

## Task 4: Meeting Coordination

**What it includes:** Back-and-forth emails to find meeting times, sending calendar invites, sending reminders, rescheduling.

| <b>Your Numbers</b>                   | <b>Fill In</b> | <b>Example</b>  |
|---------------------------------------|----------------|-----------------|
| Hours per week on this task           | _____          | 2 hours         |
| Hourly cost (your rate or staff rate) | R _____        | R 500/hr        |
| <b>Weekly cost (hours × rate)</b>     | <b>R _____</b> | <b>R 1,000</b>  |
| <b>Monthly cost (× 4.3 weeks)</b>     | <b>R _____</b> | <b>R 4,300</b>  |
| <b>Annual cost (× 52 weeks)</b>       | <b>R _____</b> | <b>R 52,000</b> |

**Automation Potential:** 95% (fully automated with booking links)

**Annual Savings Estimate:** R 49,400

**Automation Cost:** R 0-200/month (many free options available)

## Task 5: Customer Support Inquiries

**What it includes:** Answering support emails, responding to common questions, troubleshooting basic issues, providing order updates.

| <b>Your Numbers</b>                   | <b>Fill In</b> | <b>Example</b>  |
|---------------------------------------|----------------|-----------------|
| Hours per week on this task           | _____          | 5 hours         |
| Hourly cost (your rate or staff rate) | R _____        | R 350/hr        |
| <b>Weekly cost (hours × rate)</b>     | <b>R _____</b> | <b>R 1,750</b>  |
| <b>Monthly cost (× 4.3 weeks)</b>     | <b>R _____</b> | <b>R 7,525</b>  |
| <b>Annual cost (× 52 weeks)</b>       | <b>R _____</b> | <b>R 91,000</b> |

**Automation Potential:** 60-70% (AI handles common questions)

**Annual Savings Estimate:** R 54,600 - R 63,700

**Automation Cost:** R 500-1,500/month for AI support tools

# Your Total Automation ROI

Now let's add it all up. Based on the example numbers we used, here's the potential ROI from automating these five common tasks:

| Task               | Annual Cost | Automation % | Annual Savings |
|--------------------|-------------|--------------|----------------|
| Lead Qualification | R 156,000   | 75%          | R 117,000      |
| Social Media       | R 83,200    | 65%          | R 54,080       |
| Email Follow-ups   | R 78,000    | 85%          | R 66,300       |
| Meeting Scheduling | R 52,000    | 95%          | R 49,400       |
| Customer Support   | R 91,000    | 65%          | R 59,150       |
|                    |             |              |                |
| TOTAL              | R 460,200   |              | R 345,930      |

## Minus Automation Costs:

Estimated monthly automation costs: R 2,000 - R 5,000

Annual automation costs: R 24,000 - R 60,000

Net Annual ROI: R 285,930 - R 321,930

That's R 285,000+ back in your pocket each year—or 20 hours per week you can spend growing your business instead of drowning in admin.

# Ready to Start Saving?

The numbers speak for themselves. The question isn't whether you can afford to automate—it's whether you can afford not to.

## Here's How to Get Started with CapeWeb:

### Step 1: Book Your Free ROI Workshop

We'll go through this calculator together using your actual numbers, identify your biggest time-wasters, and map out a custom automation plan.

### Step 2: Get Your Custom Proposal

We'll provide a detailed proposal with exact costs, timeline, and ROI projections for your specific business.

### Step 3: Start Saving Within 30 Days

We implement your first automation workflow and you start reclaiming your time (and money) within the first month.
