

# WEBSITE PERFORMANCE CHECKLIST

**The 15-Minute Audit**  
to Boost Conversions & Speed

**CAPEWEB**

AI-Powered Website Automation  
for Cape Town SMBs

# Why Website Performance Matters

Your website is often the first impression potential customers have of your business. A slow, confusing, or mobile-unfriendly site can cost you thousands in lost revenue.

## **The Numbers Don't Lie:**

- 53% of mobile users abandon sites that take longer than 3 seconds to load
- A 1-second delay in page load time can reduce conversions by 7%
- 88% of online consumers are less likely to return after a bad experience

## **How to Use This Checklist:**

Set aside 15 minutes. Go through each section and honestly assess your website. For each item, mark Yes (✓) or No (✗). At the end, tally your score to see how you're doing.

# Section 1: Speed & Performance

Target: 5/5 points

- ☐ **Homepage loads in under 3 seconds**  
Test with Google PageSpeed Insights or GTmetrix **1 pt**
- ☐ **Images are optimized and compressed**  
Use WebP format, lazy loading, proper sizing **1 pt**
- ☐ **No render-blocking resources**  
CSS/JS files are minified and deferred **1 pt**
- ☐ **Mobile performance score above 80**  
Check Core Web Vitals in PageSpeed Insights **1 pt**
- ☐ **Using a CDN or fast hosting**  
Content delivery network for faster global access **1 pt**

Your Speed Score: \_\_\_\_ / 5

## Section 2: Mobile Experience

Target: 5/5 points

- |                          |                                                                                      |      |
|--------------------------|--------------------------------------------------------------------------------------|------|
| <input type="checkbox"/> | <b>Fully responsive design</b><br/>Site adapts perfectly to all screen sizes         | 1 pt |
| <input type="checkbox"/> | <b>Touch-friendly buttons and links</b><br/>At least 44x44 pixels, easy to tap       | 1 pt |
| <input type="checkbox"/> | <b>Text is readable without zooming</b><br/>Font size at least 16px on mobile        | 1 pt |
| <input type="checkbox"/> | <b>No horizontal scrolling required</b><br/>Content fits within viewport             | 1 pt |
| <input type="checkbox"/> | <b>Forms are mobile-optimized</b><br/>Large inputs, proper keyboards, minimal fields | 1 pt |

Your Mobile Score: \_\_\_\_ / 5

## Section 3: Conversion Optimization

Target: 6/6 points

- ☐ **Clear value proposition above the fold**  
Visitors know what you do in 5 seconds **1 pt**
- ☐ **Prominent, action-oriented CTA buttons**  
"Book Now", "Get Started", etc. - not "Learn More" **1 pt**
- ☐ **Trust signals visible**  
Reviews, testimonials, client logos, security badges **1 pt**
- ☐ **Contact info easily accessible**  
Phone, email, or chat visible on every page **1 pt**
- ☐ **Simple navigation (5-7 items max)**  
Clear menu structure, no overwhelming dropdowns **1 pt**
- ☐ **Lead capture forms present**  
Newsletter, free resource, or contact form **1 pt**

Your Conversion Score: \_\_\_\_ / 6

## Section 4: SEO Fundamentals

Target: 5/5 points

|                                                                                   |                                                                                    |      |
|-----------------------------------------------------------------------------------|------------------------------------------------------------------------------------|------|
|  | <b>Unique, descriptive page titles</b><br/>Include keywords, under 60 characters   | 1 pt |
|  | <b>Meta descriptions on all pages</b><br/>Compelling summaries, 150-160 characters | 1 pt |
|  | <b>Header tags used properly</b><br/>One H1 per page, H2s for sections             | 1 pt |
|  | <b>Image alt text present</b><br/>Descriptive text for accessibility and SEO       | 1 pt |
|  | <b>SSL certificate installed</b><br/>Site uses HTTPS (secure padlock)              | 1 pt |

Your SEO Score: \_\_\_\_ / 5

## Section 5: User Experience

Target: 4/4 points

- |                                     |                                                                                      |      |
|-------------------------------------|--------------------------------------------------------------------------------------|------|
| <input checked="" type="checkbox"/> | <b>No broken links or 404 errors</b><br/>All internal and external links work        | 1 pt |
| <input checked="" type="checkbox"/> | <b>Consistent branding and design</b><br/>Colors, fonts, style maintained throughout | 1 pt |
| <input checked="" type="checkbox"/> | <b>Readable content with white space</b><br/>Not wall of text, proper spacing        | 1 pt |
| <input checked="" type="checkbox"/> | <b>Fast, helpful search or site map</b><br/>Easy to find specific information        | 1 pt |

Your UX Score: \_\_\_\_ / 4

# Your Total Score

Add up your scores from all five sections:

|                                    |         |
|------------------------------------|---------|
| Section 1: Speed & Performance     | ___ / 5 |
| Section 2: Mobile Experience       | ___ / 5 |
| Section 3: Conversion Optimization | ___ / 6 |
| Section 4: SEO Fundamentals        | ___ / 5 |
| Section 5: User Experience         | ___ / 4 |

---

**<b>TOTAL SCORE</b>**

**<b>\_\_\_ / 25</b>**

## What Your Score Means

**20-25 points: Excellent!** Your website is performing well. Focus on fine-tuning and A/B testing.

**15-19 points: Good.** You're on the right track. Address gaps in weaker sections for quick wins.

**10-14 points: Needs Work.** Your site is losing you leads. Prioritize speed and mobile experience.

**0-9 points: Critical Issues.** Your website is costing you customers. Time for a redesign or rebuild.

# Your Next Steps

Now that you know where your website stands, it's time to take action. Here's how CapeWeb can help:

## 1. Book a Free Website Audit

We'll dive deeper into your specific issues and provide a detailed action plan with prioritized recommendations and ROI estimates.

## 2. Get a Custom Quote

Whether you need a quick tune-up or a complete rebuild, we'll provide transparent pricing based on your actual needs—no surprise fees.

## 3. Watch Your Conversions Grow

Our clients typically see 20-40% increases in conversions after implementing our performance and UX recommendations.
